## PROJECTS:

### [\[Link\]](#) **Text Utilities React App:**

It is a Text Utilities App Which I created using React JS. Which takes input from the user and convert their text to uppercase, lowercase, capitalize each words, remove extra spaces and it also has a functionality to copy and clear the text and shows its preview with words and character counts.

### [\[Link\]](#) **Dictionary Web App:**

This website works as an Online Dictionary app. The user needs to put a word in the text box and then click on Search, if he gets a response he can see its noun and verb as well as it can also speak the word and the example of the text. This website used an external API to Fetch Data.

### [\[Link\]](#) **Mini Projects:**

In this repo it has all of my Web Dev Projects links in one web page so it can be easy to access and view my projects at once.

### [\[Link\]](#) **Photoshop Portfolio:**

This Google Drive Link is my Photoshop Portfolio in pdf format.
